BUREAU VERITAS INTRO

Bureau Veritas is a worldwide leader of testing, inspection and certification (TIC). The company is built on a solid foundation of over 190 years of experience. We build trust by anticipating the future and understanding the needs of our clients and the marketplace. Sustainability, digitalization, continuous improvement, among other important industry trend topics embed our strategy.

We have maintained our trusted name and reputation by adhering to our quality management system and strictest safety standards, aligned with augmented technology and professional expertise, to exceed client expectations.

We help our clients attain optimal production whilst maintaining cost efficiency. Together with

our business partner, we contribute to making progress in science and technology, monitoring and supplying with high-quality all commodities products that reach the millions of homes around the globe. This implies mitigating its operational risks, sharing our knowledge and expertise - likewise updating them in accordance with the applicable international and local compliance norms and regulations from where we operate, across 140 countries.

Our network of laboratories, strategically located in key trading locations around the world, provide precision analytical testing to both internationally recognized standards and customer specific methodologies across the main industries.
