LABORATORY OUTSOURCING

Improving Technical Delivery Whilst Reducing Costs

OVERVIEW

Any company with an in-house laboratory has the option to outsource the running of their facility to Bureau Veritas. Our core business is to operate, manage and develop laboratories - by doing so, lowering your running costs and freeing up capital expenditure for other needs. Quality control may also be improved through the extension of our rigorous audit programs available within our larger network of laboratories, such as round-robins, HSE compliance and quality management.

In addition, outsourcing your laboratory will feature various efficiency initiatives such as reducing turnaround times and increasing capacity.

OUR EXPERTISE

Bureau Veritas has delivered numerous laboratory outsourcing projects around the world for global majors within the petroleum, mining and agriculture sectors. Our laboratories are staffed by master chemists, highly trained technicians and laboratory management with a wealth of industry knowledge and experience.

Our global technical governance team represent Bureau Veritas on various industry organisations and committees such as API, ASTM, Energy Institute, the TIC Council and so on. Our teams engage in continuous improvement to ensure we consistently achieve best-practice in terms of accuracy, speed, traceability and efficiency to ensure reliable, repeatable test results.

Bureau Veritas' are able to support clients requiring third party analytical services within a wide range of industrial markets or who are looking to outsource their quality control requirements on-site. We operate under the most stringent quality and HSE controls and hold accreditations including ISO 9001, ISO 14001 and ISO 17025.
